Milam Maize Comes In Near-Normal Crop

JUNIOR QUEENS — One of these attractive young ladies will be named junior queen of the 10th annual Milam Farm Bureau Contest 8 p.m. Friday at Cameron First Methodist Fellowship Hall. From left, they are: Nan Noack, daughter of Mr. and Mrs. Leon Noack, Rockdale; Eleanor Svetlik, daughter of Mr. and Mrs. Elbert Svetlik, Buckholts; Pamela Kary Hause, daughter of Mr. and Mrs. Bentley Hause, Cameron; Janet Lee Angell, daughter of Mr. and Mrs. Clifford Angell, Rt. 2, Cameron; Dora Lee Mewis, daughter of Mr. and Mrs. M. H. Wimberly, Rt. 3, Cameron; Mary Elizabeth Hanel, daughter of Mr. and Mrs. Clarence Hanel, Cameron; and Vickie Lynn Krenek, daughter of Mr. and Mrs. Louis Krenek, Cameron. Winner will receive this Angus calf from Mr. and Mrs. Preston Perry, of Rockdale.

City Dog Drive Tags 131, Ends 34

The City's drive on licensing dogs and disposing of unclean strays this week saw 131 licensed and 34 dogs eliminated, according to Chief Elvin Hoskins.

The drive started about two weeks ago when mounting complaints on stray dogs and loose, unlicensed dogs caused the Cameron City Council to push a clean-up drive.

Hoskins said that a tour through the Northeast Section of town Tuesday showed only five dogs running loose and each was licensed and tagged with city tag and rabies vaccination tag.

In an earlier July Council meeting, city fathers urged by resolution the campaign to reduce the growing number of stray dogs.

Any animals picked up are impounded for three days, time for the dog's owner to pick him up, Hoskins said.

City dog ordinances require that all dogs wear two tags, one showing vaccination for rabies and the other a city license renewable each year.

Strays are picked up and brought in to the City Dog Pound, where they are kept for the mandatory three days before any disposition. Owners of dogs found missing may find their animals picked up, officials said, because the dog has no tags.

Councilmen this week again urged local residents to have their dogs vaccinated for rabies by the veterinarian of their choice and have pets licensed at City Hall.

Guard Announces 11 Promotions

Eleven promotions have been announced for Milam County's National Guard unit by Capt. Joe C. Willingham, Commanding Officer.

Promoted to staff sergeant are Trine Alvarez and Fabian J. Klecka, Jr. Alvarez is in the tank section and Klecka is head of the units mess section.

Moved to Sgt. E5 are Alvin W. Baggerly, John W. Cooke and Jimmy L. Lowe.

Promoted to Sp5 are Lee R. Doskocil, Milton W. Hubnik and Johnnie A. Klecka.

Willingham named Marvin Roessler and Leland W. Taylor to Sp4 slots and Marcelino E. Flores to PFC.

The unit will move to Fort Hood July 28 for their two weeks of training.

Fertilizer Offsets Moisture Need

Milam maize crop output is exceeding expectations for one basic reason--added use of fertilizer, according to County Agent J. D. Moore.

As carloads of grain rolled from two Cameron grain companies in a short, but heavy grain harvest season, agriculture observers found there was "no major setback in yields' despite the drouth through the growing season.

The real problem, approaching disaster proportions in some parts of the county, is in pasture grass for Milam livestock.

PRODUCTION

But grain producers yields from a low of 3,000 pounds per acre to a fantastic 6,000 pounds per acre--for one simple reason-- fertilizer.

Despite dry weather, three types of grain grown on the John A. Smith farm, in the Brazos bottom, produced 4,500 pounds of maize per acre in three types with only 1.1 inch of rain during the March 14-July 18 growing season, Moore said.

The fourth type, which suffered some smut damage, still yielded 3,700 pounds per acre. Eighty pounds of fertilizer was used per acre, Moore said.

Results were equally as good on most of the Milam farms using some form of fertilizers on their grain.

Both Cameron grain storage houses reported a heavy turnout during the past three weeks.

The grain is of good quality, perhaps not as high a quality as last year, but good despite dry weather. Corn prospects appear equally good, storage men said.

PASTURE GRAVE

But Moore said real concern is gathering for the grass and hay supply for Milam livestock. It is critical and stockmen are studying ways they can alleviate the situation until general rains come.

Cotton appeared to be doing fairly well, Moore said, but there will be more shrinkage in cotton than grain.

"A two or three-inch rain a few weeks ago would have done a lot for cotton as well as maize," he said.

"It is too early to tell what cotton output is going to be," he said.

First bales were reported last week in Cameron. Thorndale and Rosebud.

WHEN WATER FALLETH — It comes from the spigot or drips from the air conditioner or hisses from the sprinkling system.

And at this time of year, it sometimes sizzles in clouds of vapor from the overheated radiator, already empty because it boiled an unhappy mile or two extra . . .

miles from a town or a gas station. The latter is not true too long. With continuous construction, it may be quicker to wait for another gas station to be built than to hail passing motorist for a ride to town.

But what water does in summer is most important in hot weather.

If a pool full of it stands too long in the sun (and what else can it do?), it gets hot and people prefer to swim early or late. If you wash your car with it in the sun, it's gone as fast as you spray it. Some folks aren't so lucky as to have it readily available and have to haul it.

Water turns grass green if you water every day. It's great in ice cubes tinkling inside a glass. It's fun for kids to chew on after they drink all the soft drink or tea or fruit drink from the glass.

We all want water, usually at different times. The cotton man wants it just when the grain grower doesn't need it. And the stockman needs it then and in between to keep his pastures growing.

Some of us get it from wells, most everybody in Cameron from the City.

We all take it for granted 'til summer, then we find it's pretty important stuff.

Queen Candidates Await Contest

Seven junior candidates and six senior queen hopefuls will step before a large crowd 8 p.m. Friday at Cameron Methodist Fellowship Hall for the 10th annual Milam Farm Bureau queen contest.

Seven juniors, shown above in the photo with the Angus calf prize, will be competing for the crown won last year by Robin Kay McQuary, of Thorndale.

Entrants in the senior division include two young ladies from Cameron and four others from various parts of the county.

Senior contestants are: Rita Stewart, daughter of Mr. and Mrs. J. O. Stewart, Rt. 1, Milano; Patricia Ann McClaren, daughter of Mr. and Mrs. H. L. McClaren, Rt. 3, Cameron; Linda Ann Ethridge, daughter of Mr. and Mrs. Johnnie Ethridge, Cameron; Carole Brown, daughter of Mr. and Mrs. Joe Brown, Rt. 3, Rockdale; Judy Westbrook, daughter of Mr. and Mrs. L. M. Westbrook, Rt. 3, Cameron; and Jolene Wied, daughter of Mr. and Mrs. E. L. Wied, Cameron.

Junior contestants are: Nan Noack, of Rockdale; Eleanor Svetlik, of Buckholts; Pamela Kary Hause, of Cameron; Janet Lee Angell, Rt. 2, Cameron; Dora Lee Mewis, Rt. 3, Cameron; Mary Elizabeth Hanel, of Cameron; and Vickie Lynn Krenek, Cameron.

MFB officials are expecting a large turnout for the annual queen's contest, to be judged on poise, appearance and personality by out-of-county judges.

Winner of the senior contest receives a $30 check and represents Milam County in the District Contest in August. Junior winner receives the Angus heifer given by Mr. and Mrs. Preston Perry, of Rockdale.

Schiller Appointed To Committee On 'Operation Teenager'

House Speaker Bryon Tunnell announced the appointment of Representative Milton Schiller of Cameron to the interim committee directed to study the feasibility of making "Operation Teenager" available to Texas schools.

"Operation Teenager," a video film supplied by the Department of Correction, is a dramatic first-hand presentation by actual convicts, who are inmates of the Texas Department of Correction, offering their own histories as examples of the ways in which our youth can quickly become involved in lives of crime. The film, when shown to youth groups across the State, and nation, has drawn great attention as a crime deterrent, particularly for borderline, confused youths.

The House Interim Committe is charged with the responsibility of investigating the possiblity of making the film more readily available for the benefit of the school children of Texas.

In making the appointment, Speaker Tunnell said, "During his first term in the Legislature, Rep. Schiller distinguished himself as an outstanding and highly qualified Representative. His active concern with such worthwhile projects as will be established with this committee's action will make him a valuable contributor to the study."

Yoeman Boosters To Meet Monday

COOK TRIAL SET FOR AUGUST 5, MONDAY, IN CITY

The murder trial of Oscar F. Cook, 23, of Rogers, indicted for murder with malice and on three counts of assault with intent to murder, has been set for Monday, August 5, according to County-Dist. Atty. John B. Henderson, Jr.

Cook is awaiting trial during confinement in Milam County Jail.

He was indicted May 21 by a Milam Grand Jury, charged with murdering his mother-in-law, Mrs. Dan Crow, of Davilla, and wounding his former wife, Mrs. Velma Cook, 23; her brother, Danny Crow, 20; and her sister, Mary Lou Crow, 16.

Court appointed defense attorney is Charles C. Smith, Jr., who has represented Cook since formal arraignment was held where Cook pleaded not guilty to the charges.

The three wounded members of the Crow family have recovered from chest wounds, following treatment in Temple hospitals.

Cook himself recovered from a chest wound, said to be self-inflicted following the shooting melee at the Crow home in Davilla May 14.

Murder weapon is a 22 - cal., six - shot revolver, which had been found in Cook's possession the night of the shootings.

Sheriff Carl Black has 12 empty hulls out of a box of 50 purchased by Cook that day.

Herald Working On Ag Section

Want to boost agriculture improvement and soil conservation?

The Herald is working on such a special section which will appear next week to tell the complex story of agriculture, what is being done to improve it, how private enterprise and government agencies function in agriculture and the potential that combined talents can make of Milam County and the Central Texas Blacklands.

The staff feels you will enjoy feature stories by Lloyd Albertson on such subjects as Brazos River Authority, the Screwworm problem, Operation BIG (a big factor in agriculture improvement) and ways various agencies work toward the expansion and improvement of agriculture.

Watch for this section, and if you find interest in agriculture, support it.

After all, it is an $11 million dollar industry in Milam County.

Four Indictments In Wednesday Meet

Four indictments were returned by a Milam District grand jury Wednesday after one and a half hours of review.

Two indictments for forgery were found against W. L. Burton, about 50.

Woman Burned, Man Overcome By Smoke In San Gabriel Blaze

By Mrs. H. H. Linke
Herald San Gabriel Writer

Two persons Friday suffered injuries and underwent hospital treatment following a fire which completely destroyed a large, empty house on the L. L. Worley farm, near San Gabriel.

Buddy Limmer, of San Gabriel, was overcome by smoke while Mrs. Limmer was severely burned.

Both were taken to Richard's Hospital, Rockdale, for emergency treatment.

By the weekend, he was released after treatment. Mrs. Limmer was transferred to a Taylor hospital suffering from burns on her right arm, face and both legs.

Rockdale firemen fought the blaze, but were unable to do more than keep it from spreading to an adjoining barn and hay shed.

Limmer was overcome by smoke while fighting the fire along with Rockdale volunteer firemen.

He had been hauling hay at the time the fire started.

Yates Succeeds Sugg At Alcoa

J. E. Yates, former Assistant Works Manager at Rockdale smelter and currently on the Smelting Divisions staff in Pittsburgh has been named Rockdale Works Manager for Aluminum Company of America.

Yates replaced R. R. Sugge who will transfer to Pittsburgh to become Administrative Manager, Fabricating and Smelting Division.

The moves will become effective early in August.

Yates, well known in Rockdale, has held important top level jobs with Alcoa. He came to Rockdale in 1951 where he served at the Works as Carbon Plant Superintendent, Aluminum Plant Superintendent, Production Superintendent, and Assistant Works Manager. In 1960 he transferred to Alcoa Smelting Division's staff in the Pittsburgh Office.

Sugg, an Alcoan since 1925, was assigned to the Pittsburgh Office of the company in 1951 during the planned installation of the Rockdale plant. In 1952 he transferred here to become Rockdale Work's first Aluminum Plant Superintendent. The following year he was promoted to Production Superintendent and became Works Manager in 1955.

Immediately after his graduation from the University of North Carolina with a Bachelor's Degree in chemistry in 1925, Sugg joined Alcoa at the Badin, North Carolina, Works. He was made Production Superintendent in 1942 at the company's Torrance Works near Los Angeles, California, where he remained 2 ½ years before returning to the Badin Works. He then came to Rockdale Works where he has been for more than 11 years.

In Rockdale Sugg has been a civic leader having served as president and director of the Rockdale Chamber of Commerce, secretary and director of the Rockdale Rotary Club and an elder in the Persbyterian Church.

Sugg was active in scouting, having served as chairman of the Tejas District Heart O' Texas Council, Boy Scouts of America and as vice president of the Council. He is a director of the East Texas Chamber of Commerce; a past vice president of the Heart of Texas Chapter of Texas Manufactures Association; and a member of the Advisory Council of the University of Texas, Executive Development Program, the Advisory Board of Texas Industrial Commission and of Texas Chemical Council.

On Milam's Farms and Ranches

News About Milam Farmers, Their Interests, And Activities

Oil Only Resource Exceeding Value Of Farm-Ranch Output

COLLEGE STATION - The value of Texas' farm and ranch production is exceeded by only one other raw material, oil. The value of the state's total yearly agricultural production exceeds the payroll for manufacturing, or the total of construction awards or the payroll for retail trades, points out John McHaney, extension ceonomist.

Farm and ranch production each year has a total value of just under 2.5 billion dollars, but, explains McHaney, agriculture adds much more to our total economy than just income from the sale of products.

Business firms which assemble process, distribute, transport wholesale and retail the products of Texas' farms and ranches employ about 20 percent of the labor force of the state and add about 3.9 billion dollars to the agribusiness economy. Their primary concern is to get the agricultural products to the final consumer in the desired form and at the right place and time.

Simple addition, says McHaney, shows that the sale of agricultural products plus the costs of processing and distributing them annually adds to the state's economy about $6.3 billion. The economic destiny of most Texas counties, the economist adds, hinges primarily on the agribusiness economy.

And commenting upon the future of the Texas agricultural injustry, McHaney emphasizes the future will belong to those people and states which work to keep their agricultural economy competitive with other areas of the nation and world.

Agriculture, he adds, is no longer a way of life but rather a big competitive business.

FARM SPENDING CLIMBS

While the number of farms and farm workers in the U. S. has steadily declined, the farmers total expenditures continue to increase, says the USDA Production expenxpenses have quadrupled in 40 years from less than 17 billion in 1922 to $28 billion in 1962.

Chemist Advises Test Soil Now For Fall Crop,

COLLEGE STATION - Now is the time to have your soil tested in preparation for fall planting, says William F. Bennett, soil chemist with the Texas Agricultural Extenson Service.

Early soil sampling is encouraged by the chemist to avoid the fall rush that crowds the state's three testing laboratories. Samples being received now are mostly from pastures, fall-seeded crops and lawn or flower beds, he says.

The number of samples received during May and June was about normal for this period at all three labs. In May 839 samples were tested and 495 were examined in June.

The A&M College lab led in the number of samples received, with the Hgh Plains lab second and the Baylor County facility handling the lowest number. Harris county topped the list of those submitting samples with 55, while Henderson county had 42 and Hale county submitted 27 samples.

Bennett reminds that establish shed legume pastures are among the crops that will need fertilization this fall. An increasing number of acres are being seeded to vetch, Crimson and White clover and since fertlity needs of these crops vary, soil samples should be taken, he says.

One element of special importance to East Texas and Coast Prairie farmers is lime, points out Bennett. He says that three-fourths of the East Texas soils and one-half of the eastern Coast Praire soils need lime, and it should soon be applied to them for fall planting.

For more information about soil testing and for instruction on the method of taking and submitting soil samples, contact your county agricultural agent.

Cotton Reports

Harvesting picked up speed in the Ri oGrande Valley and along the Coastal Bend sections of South Texas, according to the USDA's Agricultural Marketing Service.

AUSTIN - First bales were ginned at several points. Ginnng was expected to pick up considerably next week. Prices on new crop cotton were still unestablished as tradesmen were not too anxious to buy first bales.

Scattered showers hampered opening of the crop in some places and in other sections premature opening has resulted from drought conditions. Crops continued to look good in most sections. Some insect activity was reported throughout the terrtory.

Legislator Spends July 4 In District

By Congressman W. R. Poage

It was wonderful to be in Texas for a week. I was home during the week of July 4 and had the privilege of visiting many of my friends.

As I have heretofore pointed out, I believe that it is as important for any Representative to visit the area and the people he represents as it is to attend the actual sessions. If he does not do this, he soon ceases to "represent" anyone except himself. It is also just as important for Members of Congress (collectively) to visit all parts of the United States and of the world as it is for our President to do so, because otherwise, the Congress must accept the President's observations or those of his assistants.

Both the Legislative and Executive Branches have a responsibility for policies involving the whole world.

The American people have pretty well realize the need for Executive travel, including not only the President and his official parties but also the hundreds of thousands of subordinate Administration Officials who are properly going here and there every day, but somehow our people have been taught that the Congress should get all its information second hand. I do not accept this idea. I think that Congressmen should acquire all the first hand information they can and every time the work of the House allows it — try to add to my knowledge of the problems with which we have to deal.

This week the Secretary of Agriculture came before our Committee and gave us some very interesting data on the so-called "Family Farms." He said: "Each time I hear someone say that the family farm is dieting I want to add loudly and clearly "let the consumer beware'".

He then pointed out the fact that while the American consumer is today enjoying more and better food for a smaller percent of his income than at any time in history, that if the family farm were driven out of existence by the overwhelming disparity of bargaining power of suppliers and customers of farmers, by contract or captive farming, or like forces, that the cost of food and fiber to the consumer would be bound to go up.

He quoted an official of the Bank of Ameican to the effect that "good (Agricultural) management strong enough and big enough will not contribute to its own demoralization by over production".

County Agents Notes...

Orchards Help Up Cash Income

J. D. Moore
By County Agent

number of home orchards and individual trees have added a good supply of fresh fruit as well as cash income for better living in Milam County. Some mature trees produced as much as four bushels of peaches per tree with a ready market.

The Vegetable-Reproduction balance and the environment necessary for proper production are based on these factors: (1) the water supply (2) the temperature (3) the light supply (4) the nutrient supply. Since these factors usually limit the growth and development of plants, they are called the limiting factors in growth and development.

Most fruit trees are under stress conditions now due to extreme high temperatures, dry weather and have "tired blood" because of the nitrogen and carbohydrates removed by the present crop of fruit.

MOISTURE SUPPLY MOST CRITICAL - Fruit trees should be watered if possible to furnish oxygen to the root system and replace moisture lost through the leaves due to the hot weather. By planting a winter cover crop of vetch and rye, make more oxygen available to the roots as well as furnishng a more disirable condition for root development. For individual trees around the home, three or four bushels of leaf-mold or decayed cotton burs mixed with one bushel of barnyard manure worked into the soil during the winter months will correct the physical condition of soil and store more moisture.

WHAT TO DO NOW? - In addition to watering the fruit trees, 3 to 5 pounds of nitrogen should be added to the soil under the lime-spread of the tree and worked into the soil. The purpose of adding nitrogen now is to help stimulate vegetatine growth through the fall months for a better fruit crop next summer. The peach crop next spring will be set on fruit buds that are formed on the tree the previous summer and fall. Additional information on fruit tree care is available at the County Extension Office in Cameron.

CONSERVATION A MUST

Sixty-two percent of our present cropland needs conservation treatment, says the USDA. Erosion control is needed on 161 million acres, 60 million are under excess water, unfavorable soils exist on 36 million, and adverse climate is a problem on 14 million acres.

DAIRYING COMPETATIVE

There is little room for mistakes in the highly competitive business of dairying. Production records provide facts that help eliminate guesswork in feeding, breeding and management. To make the most profit from your farm you need this factual information.

Milam ASCS Report

Cotton marketing cards were mailed this week to producers who are in compliance with their farm acreage allotment, according to Alva E. Sanders, office manager of the Milam County Agricultural, Stablilization and Conservation Service.

Cotton producers were urged to watch their mail for the cards, which are white this year. Without a marketing card, cotton cannot be sold.

In further cotton news, the U. S. Department of Agriculture has announced that the Commodity Credit Corporation will take title to all 1962-crop loan cotton on which loans have not been repaid by the close of business July 31.

Notice that the cotton will be acquired by CCC at loan maturity is being given now so producers will have sufficient time to redeem their cotton, and mills and merchants will be able to obtain any additional cotton they may need from the loan before the maturity date.

In accordance with the loan agreement, CCC will pay for any market value the cotton may have in excess of the amount of the loan and charges plus interest.

Any warehouse receipt sent to local banks at the request of producert and purchasers of equities must be redeemed by payment at the local banks by the close of business Jluy 31. Any repayments by mail must be received by CCC or by the local bank before the close of business July 31.

HEARING AID PRICES DOWN

A few months ago we promised we would keep striving to bring the cost of hearing down. We announced a new low price on hearing aid batteries . . . a new low price on repairs and supplies. Now we are happy to announce a new low price on Hearing Aids.

Mr. Treadway

We have always believed that more people would do something about their hearing if the cost was down to where they could afford it. Since we cut the price of hearing aid batteries our battery sales have increased 10 fold. We are making more money on battery sales than ever before and at the same time saving the hearing aid users hundreds of dollars. We feel the same thing will happen on lowering the price on hearing aids. We think people that want to do something about their hearing can now have it done. We think people that want to change to the new type hearing will come to us as they can get the same hearing for much less money. By taking a shorter profit on our aids and fitting more people we will make more money in the long run and at the same time be doing a favor to the hard of hearing.

We must have your help to make this plan work. All we ask you to do is go anywhere, let any hearing company give you a test . . . get their prices . . . then come to us . . . then you be the judge. You can also help this plan if you wear a hearing aid by buying your batteries and supplies from us, or by letting us do your repairs. You can be sure the hearing aid boys will be yelling their heads off as they did when we cut the battery prices. Some said our batteries were not new, that we recharged old batteries . . . We will pay anyone $1,000.00 that can prove that the batteries we sell are not factory fresh, new batteries. The same holds true with our hearing aids, nerve instruments, or the new device that has nothing in the ear. We deal with 4 hearing aid companies with over 100 years in making hearing aids.

Mr. Treadway will hold his regular hearing clinic at the Right Hotel in Cameron, Tuesday July 30th from 10 a.m. to 1 p.m.

We invite you to come in and visit with us. Set down and talk over your hearing problem . . . . talk over your money problems. We promise no high pressure sales pitches, no scare stories . . just plain facts about your hearing problem. If you wear hearing and you need service or batteries, come see us. Help us that we may help others hear again by buying from us. We will come to your home if you are unable to come to the clinic.

Mr. Treadway is in the Temple office on Thursdays and Fridays from 9 a.m. to 5 p.m. if you had rather come to the office.

Miss Zotz Weds Michael R. Allen

In a double ring ceremony performed at 10 a.m. Saturday at St. Monica's Catholic Church, Miss Gerry Frances Zotz of Cameron and Michael Ray Allen of Dallas exchanged wedding vows. The Rev. John Geiser was the officiant.

The bride is the daughter of Mr. and Mrs. Oscar Zotz of Cameron. The bridegroom is the son of Mrs. Clara Allen, also of Cameron.

Baskets of white gladiola were used in floral decorations at the church alter.

Mrs. Frances Zotz of Cameron, grandmother of the bride, was organist. Johnny Schigut of Cameron, vocalist, sang traditional wedding selections including Ave Maria, Panie Angelicus, Ave Maris Stella and Oh, Lord, I Am Not Worthy.

The bride was given in marriage by her father. She wore a white formal gown featuring a draped overskirt of dainty, scalloped lace and a matching lace jacket with long, tapered sleeves, accented with rows of tiny covered buttons at the wrists and the neckline. The underskirt was of ruffled tiered nylon with a bustle back. Her veil of nylon tulle extended from a coronet of lace and seed pearls. She carried a casade bouquet of white carnations centered with a purple-throated orchid. Her only jewelry, a gift of the bridegroom, was a tiny gold cross centered with a cultured pearl.

Miss Paula Zotz of Cameron was her sister's maid of honor. Bridesmaids were Mrs. Mona Kirk of Cameron and Miss Grace Slovak of Waco. Jane Zotz of Cameron, sister of the bride, was junior bridesmaid.

The attendants wore identical street-length dresses of orchid brocade taffeta with semi-bell skirts. The bateau neckline dipped to a low oval line at the back. They wore orchid veil hats touched with orchid bows and they carried white carnation casade bouquets with orchid net and white ribbon streamers.

Mary Louise Oliver of Waco, cousin of the bride, was flower girl. Lawrence Patrick Zotz of Cameron, cousin of the bride, was ring bearer.

Jerry D. Allen of Kansas City, Kansas, brother of the bridesgroom, served as best man. Groomsmen were Roy Wohleb and Joe Mayer, both of Cameron. Dusty Mauldin of Cameron was junior groomsman.

Ushers were Ted Allen of Dallas, brother of the bridegroom, and James Barta of Cameron.

A reception following the ceremony was held at Simon-George Hall. Mrs. Sharon Slavak of Cleburne registered guests.

The bride's table was laid with a white linen cutwork cloth and centered by the bridesmaids bouquets. It held a four-tiered wedding cake and punch bowl. Appointments were silver and crystal.

Members of the houseparty were Miss Linda Kamenicky and Miss Joan Dyer, both of Austin; Miss Margaret Zotz and Miss Peggy Slovak, both of Cameron.

Mrs. Zotz chose for her daughter's wedding a cocoa brown crepe dress with a short lace jacket in a coordinated shade. The mother of the bridegroom wore a light blue silk shantung dress. Both mothers wore white carnation corsages.

For her traveling attire, the bride chose a beige and tangerine three-piece suit with a lined jacket accented at the waist with a gold medallion pin.

The bride is a 1961 graduate of Yoe High School, Cameron. The bridegroom attended Jesuit High School in Dallas.

Following a short wedding trip, the couple will make their home in Dallas.

TOWN SHOCKED AT CRIME!

Everyone agreed it was a crime when they heard Mrs. Getrid was throwing out her old furniture simply because it was drab and dingy looking and suggested she buy some "Old Masters Liquid Wood" at Anderle Lumber Company and with little effort make it look like new.

The Governor's Speech

Governor Connally showed stature as a statesman in his address on civil rights last week, seeing the many fold dangers of legislated social change.

His questioning of extremist attitudes in the now nation-wide civil rights issue came at a time when moderate thinking, focused and articulated by formal leadership, is necessary.

Much of the problem of the Deep South and the North has been the failure of moderate voices speaking out, perhaps in sacrifice, for reason. Reaction, by reactionaries, predictably fills the void. Governor Connally sees no need for it. And there is none.

The Administration's quest for arbitrary controls over private business policy is founded in deep political obligation. Its constitutionality, based on the already over-interpreted Interstate Commerce clause, is suspect.

Equality of opportunity is one thing. Obligatory equality is another.

Causing a business to lose the freedom of customer choice could be one step toward loss of freedom of pricing and competition. Furthering the right by dismissing another is dangerous business.

Socioligists themselves cannot truly believe in social change by legislation. It can be furthered, but it must mature to a general aceeptance before it becomes fact.

Governor Connally calls for patience with justice. This is the true stature of leadership that recognizes fustrations, even discrimination, as part of life, itself constantly changing, and for most, improving.

OLD PHILOSOPHER

Sage Wants To Reward Clerk
Who Lost 24 Million Bushels

Dear Editar:

The trouble with some people in Washington is that they don't know a good thing when they see it. They're so bogged down in solving problems they don't recognize a solution when it comes along.

As I understand it, this country recently lost 24 million bushels of surplus grain. We shipped it to Austria and it never did get there, or if it did no one remembers receiving it. It just disappeared.

All right, Now what happens? Why a bunch of Senators are trying to appropriate $100,000 to investigate the matter.

Here we've found the perfect system of getting rid of an embarbarrassing tax eating surplus just put it in ships and let it disappear, ges etc., and somebody wants to spend $100,000 to get it back

I don't understand this. What those Senators ought to be doing is erecting a monument to the Unknown Clerk who lost 24 million bushels of surplus grain. The last thing they want to do is investigate and find out who did it. When you get a situation like that, leave it alone and hope more and more grain will disappear until the warehouses are empty and demand gets within arm's length of supply.

Of all the ideas I've heard for getting rid of the surplus, none can equal the brillant work of the clerk who lost the 24 fillion bushels. I say leave him alone, turn him loose, give him a map of all the warehouses throughout the nation and open up a hot line between him and whoever it was in Australia he sent the stuff to, and let the Senate recess till farm problem is solved.

After all, there's a new crop of grain coming in this year and if we don't get those warehouses empty, where're we going to store it?

Yours faithfully,
J. A.

Diocese Convention Held In Austin

AUSTIN - Some 450 teenagers from over the Diocese of Austin are expected to attend the annual convention of the Catholic Youth Organization to be held Aug. 4-6 on the campus of St. Edward's University, as announced by the Rev. Progress Made On Civil Rights

By Vern Sanford

AUSTIN - Gov. John Connally says Texas is making a lot of progress on civil rights without dimonstrations and disturbances. He urged Teyans to avoid the trouble which is plauging other states.

Roy Evans, secretary of Texas State AFL - CIO, indicated mass demonstrations are needed in Lower Rio Grande Valley to improve working conditions of Mexican workers. Connally commented such statements are irresponsible and inflammatory.

Governor also rejected labor's appeal for a special session of the Legislature to abolish right-to-work law and enact state minimum wage, saying he saw "no need, emergency or deirability" for such a session.

Evans said labor's traditional role is to try to inflame people against injustice, and he intends to keep on trying to do that.

QUICK CHANGE From one of the unpaid boss jobs to a $16,500-a-year assistanceship is the story of Dr.J. B. Copeland of San Antonio.

When the Legislature created the new job of deputy commissioner of the Health Department, Dr. Copeland resigned as chairman of the State Board of Health to accept the job of deputy commissioner. He had been Board Chairman for the past ten years.

Governor Connally named Dr. N. L. Barker of Paris to replace Dr. Copeland. He reappointed Dr. Elmer Baum of Austin and named Dr. John M. Smith of San Antonio and I. D. Fores of Floresville, a pharmacist, to the Board of Health.

APPOINTMENTS - Connally made other appointments. Among them:

S. A. Kerr of Huntsville and Dr. Joe A. Nelson of Weatherford, reappointments, and David A. Kimbel, Wichita Fas, to the board of regents of North Texas State University.

Ed Minor of Austin and W. R. Whitten, Fort Worth, to State Board of Pharmacy.

Sister Mary Brian Sherry of San Antonio and Mrs. Martha McClellan Davis, Beaumont, to Board of Nurse Examiners.

Dr. Richard T. Weber of Austin and Dr. James E. Makins, Lubbock, to Board of Dental Examners.

Judge Otis Dungan of Tyer, former Atty. Gen. Grover Seers of Suphnr Springs and Judge James H. Moore, Nacogdoches, to the new 12th Court of Civil Appeals at Tyler.

Judge Stephen F. Preslar, McCamey, to the 8th Court of Civil Appeals at ElPaso, replacing Justice Jim Langdon, who he had named to the Railroad Commission.

Charles Sherri, Fort Stockton, to replace Presar as district pudge.

Judge Howard P. Green of Cuero, Paul Nye of Corpus Christi and T. Gilbert Sharpe, Browneville, to the new 13th Court of Civil Appeals in Corpus Christi.

Mayor Joe E. Kelly, Victoria, to replace Green as district judge.

Eugene R. Hoyt, of Orange, Jack Pierce of Nacogdoches, Warren P. Cunningham Jr. of Houston, Arthur C. Lesher Jr., Houston, as district judges.

Ward R. Burke of Lufkin, Dr. George Andrew Constant of Victoria and C. E. (Sonny) Bentley, Abilene, to Board for State Hospitals and Special Schools.

George Christian of Austin, who was administrative assistant to former Gov. Price Daniel, as Governor's press secretary, replacing Wilbur Evans, who went back to sports press relations.

Clay Cotten, longtime attorney for State Insurance Department, as State Liquidator to succeed C. H. Langdeau, who is retiring due to ill health.

LOANS - Frank Miskell of Austin, who headed up the Texas Legislature's studies on the loan shark problem, will be the administrator of the new law which regulates licensed lenders.

Miskell was chosen by the State Finance Commission to be the first Regulatory Loan Commissioner. He will assume his new duties on August 23.

DRY AND WET - Texas is spotted with drough and flood points.

Texas Water Commission found that reserviors declined a little in June. They wound up in the month 76 percent full, so there's room to store more goods when and if they come.

In general, Northeast Texas reservoirs are full, while those in South Texas are shrinking.

ROADS - Highway construction is one thing dry weather helps.

State Highway Engineer DeWitt C. Greer reported that contractors on state-federal projects completed $25,073,319 worth of work during June.

But there's plenty yet to do. They hold contracts which total $382,872,803 and another $25,000,000 worth of contracts will be issued this week.

DO FENCE THEM IN - Texas Highway Department has endorsed the idea of building "median rails" on busy urban expressways Rails - heavy-duty fences which keep traffic from careening into opposite lanes - have been or will be installed on expressways around Houston, Fort Worth and Austin.

Also under development by highway engineers is a woven-wire mesh fence - similar to backyard chain-link jobs - to reduce headlight glare and to prevent pedestrains from crossing the freeways.

OIL HOLD UP - Despite recommendations by several major oil buying firms that Texas production be cut in August, the Railroad Commission held the line.

Production will continue at the July rate of 28.5 per cent of capability of the wells. Independents praised the action.

HIGHER EDUCATION - Texas Committee on Education Beyond the High School has selected one of its members as paid executive director.

He is Dr. A. B. Martin, president of Amarillo Junior College. He will coordinate a staff work for the big study.

Committee has one year to finish its study and report to the Governor and Legislature.

In The Service

KEESLER AFB, Miss. - Airman Second Class Charles W. Wyatt of Cameron, is being reassigned to Grand Forks AFB, N. D., following his graduation from the United States Air Force technical training course for radar operators here.

Airman Wyatt received advanced instruction in the operation of semi-automatic ground environment (SAGE) and manually-operated radar systems.

The airman, a graduate of O. J. Thomas High School, is the son of Mr. and Mrs. Rufus Wyatt of Rt. 4, Cameron. He attended Prairie View A&M College.

Out Of The Past

From Herald Files

IN THE 1901 HERALD

"Sam Pitts recently purchased a new corn popper and peanut roaster. It is the best one ever in Cameron costing over $100. It will roast peanuts and pop corn at the same time and both are kept warm all the time at very little expense.

"John Pace, a graduate in pharmacy of the Galveston Medical School is now in charge of the prescription department of the Cameron Drug Co.,,

"Messrs. Willie Lee Hause, Perry Wilkerson, Ed Newman and Holman Beaty drove out to Ben Arnold last night to a house party at the residence of Mr. and Mrs. Will Ford. There were present besides the above: Misses Mattie Ford, Lula Chambers, Gussie Caldwell and Florence Lankford and John Ford and Miss Pearl Todd from Burlington."

The Cameron Mattress Factory advertised their best hand-made cotton mattress for $4.50.

IN THE 1938 HERALD

"Judd Davis, Chairman of the Democratic Executive Committee, announced the finally political rally for Milam County to be held on the courthouse square."

"Miss Helen Green and Carolyn Cheeves, who have been attending summer school at the State University, will spend the remainder of the summer with their parents."

Mr.and Mrs. M. G. Cox and Miss Mildred Thornton left last week for an extended visit to Virginia and other eastern states. They also expect to visit Florida and return by way of the Carolinas."

TPL Symbol of Responsibility

COMPANY and product emblems and trade-marks are as much a part of the American scene as hot dogs and ice cream and one of the outward evidences of a free-enterprise society.

Texas Power & Light Company's familiar emblem is more than a symbol of identification . . . it is also a symbol of responsibility.

TP&L was organized 51 years ago as a free-enterprise *business venture* . . . a business of supplying a service which was rapidly to become an essential living need.

TP&L is an *investor-owned* company . . . owned by thousands of people like yourself and your neighbors who entrust their savings because they have confidence that such an investment will return a reasonable profit or dividend.

TP&L is a *business-managed* company. More than 2,200 people, whose progress and remuneration depend upon performance, direct and carry out the wide variety of specialized tasks which are necessary to produce, transmit, and distribute electric power and to conduct related activities.

TP&L is a *tax-paying* business. In many of the cities and towns which it serves, TP&L is the largest single taxpayer. Approximately 26 cents of each dollar of the Company's revenue goes for local, state, and federal taxes.

TP&L is a *regulated* business. Regulatory laws give assurance the public will be provided first-class, dependable service at prices that allow the Company to provide a reasonable return on savings invested with the Company.

Of all the "unseen" characteristics of the electric power business, perhaps one of the most important to customers is embodied in the activities of *planning and building ahead* to meet future power needs.

This, in brief, is your supplier of electric light and power, Texas Power & Light Company. We hope these few facts serve to help you know us better.

THE COCK CAN TEACH US A LESSON

When a new day dawns the cock announces it with a lusty crow, No lagging, slothful bird, the cock. He calls his mates to awaken and enjoy each new day. The human family can take a lesson from him. We can, if we will, meet each day with a song or shout in our hearts annd defy the things which seem a drudgery.

There are aids which give the kind of spirit needed to meet each dawn with a lilt. Attendance at the churc hof one's likink is such an aid. It assists in putting most people in the right frame of mind and spirit for meeting each day. For one thing, church attendance helps dispel resentments—great drawbacks to meeting the day in the proper spirit. Learn to use the Church as a source for joyful living. It is well worth your trial.

In The Service . . .

LITTLE ROCK AFB, Ark., - The United Sates Air Force has announced the coming retirement of Senior Master Sergeant John T. Edwards of Rockdale after more than 25 years service.

Sgt. Edwards, whose retirement is scheduled for Aug. 31, is a missle maintenance superintendent in the 308th Missle Maintenance Squadron here.

During World War II, the setgeant served in the Carribean theatre of operation and later in the Korean Conflict.

Sgt. Edwards and his wife, the former Margaret I. Ldwtwait, will reside at 461 Raintree Blvd, Austin. He is a graduate of Rockdale High School.

SEOUL, KOREA (FHTNC) Marine Corporal Jurrel W. Beene, son of Mrs. Oama Beene of 1407 E. Houston, Cameron is serving with the Third Battalion of the Third Marine Division, a unit which recently participated in a joint U. S. Republic of Korea amphibious exrcise dubbed "Operation Flagpole" and conducted near Eeoul, Korea.

The training exercise involved 67 ships plus numerous Marine air and ground units of both nations.

It ended June 28 at U. S. and Korean Marines secured their last objectives after four days shore combant amid driving rain.

James T. Price, 1003 E. Gillis Street, is undergoing two weeks of annual active duty training at 2209 Lovell Drive, near Austins Municipal Airport. Price, a postal employee in Cameron, is a member of the 9411th Air Force Reserve Recovery Squadron of Austin.

A master seargeant assigned to the maintenance section, he participates in the squadron's task of preparing alternate landing sites for U. S. Air Force planes returning from missions in the event of war.

Waiver Necessary For 52 Pupils To Attend School

The Cameron School District's decision to charge tuition has brought a Texas Board of Education decision to allow Bartlett to claim average daily attendance on 52 Negro Davilla students, formerly attending classes here. The action will allow the students to attend classes next fall in Bartlett.

County Supt. H. D. Maxwell appeared before the State Board of Education in a recent hearing to appeal Commissioner J. W. Edgar's refusal to waive Board policy. He told the Board that the Davilla District could not afford to pay $75 tuition per student for its Negro students.

Davilla has no Negro school. Davilla and Cameron School Districts do not share common boundaries and cannot consolidate.

Maxwell said it may be possible at a later date to consolidate Davilla and Bartlett districts, but a solution to the schooling program for Negro students formerly attending school in Cameron was needed at once.

The Cameron School Board several weeks ago announced a new tuition policy which will require students transferring into the Cameron to pay $75 per pupil per year.

Cameron had about 180 transfer students from surrounding districts during the 1962-63 school year.

Under the special ruling, both Cameron and Bartlett districts will claim the average daily attendance for 1963-64.
